NEW OPTIONS AND ACCESSORIES AVAILABLE TO EXISTING SPORT KISS DIVERS

Jetsam Technologies is pleased to announce new upgrades for the Sport KISS Rebreather.

These new features include:

- Black display and exhaust hose attachment pods.
- New sensor housing which has been designed for the R22-D sensors.
- Redesigned Three Hose Connector for the Jetsam displays, for use with the R22-D sensor housing.
- Fischer Hose Connector which will allow Sport KISS divers to utilize the Closed Circuit Research pendent display or the full monitoring system with VR3 computer.

UPGRADE COSTS - PARTS ONLY

Black hose attachment display pod, \$118.00 Canadian

The black display pod will only work with the R22-D sensor housing.

Black hose attachment exhaust pod with spacer only, \$150.00 Canadian

R22-D sensor housing, \$45.00 Canadian

Three hose connector for Jetsam displays, for use with R22-D sensors, \$94.00 Cdn

Fischer hose connector for C2R pendent display, for use with R22-D sensors,
\$270.00 Canadian

UPGRADE COSTS - PARTS AND LABOR

UPGRADING TO BLACK EXHAUST POD: The entire pod must be returned to Jetsam. Jetsam will swap all the components and then test the new pod. (cost includes the pod with spacer, labor and testing) \$210.00 Canadian

UPGRADING EXISTING JETSAM SPORT DISPLAYS TO WORK WITH R22-D SENSORS

Those that would like to upgrade their existing Jetsam displays to work with the R22-D sensors, must also upgrade their circuit boards so they have the correct load and must purchase the new three hose connector. The old three hose connector will not work!!

UPGRADING EXISTING RED DISPLAY POD AND TRIPLE DISPLAY TO WORK WITH R22-D SENSORS: The red display pod and entire triple display must be returned to Jetsam. We will modify your red display pod, swap your existing three hose connector for the new one, add the R22-D sensor housing, and modify the Sport circuit boards. (cost includes R22-D sensor housing, new three hose connector, circuit board modification, labor and testing) \$249.00 Canadian

UPGRADING EXISTING TRIPLE DISPLAY TO WORK WITH R22-D SENSORS AND BLACK DISPLAY POD: The triple display and wiring must be returned to Jetsam. We will swap your existing three hose connector for the new one, add the R22-D sensor housing, and modify the Sport circuit boards. (the cost includes black display pod, R22-D sensor housing, new three hose connector, circuit board modification, labor and testing) \$367.00 Canadian
